Entrypass Contact Tracing Application

Picture shown is for illustration purposes only. Actual products may vary due to product enhancement.

## What is “MyEntrypass”?

MyEntrypass is an automated entry registration system for business premises using simple and fast QR-codes. Each business premise will be given a unique QR code upon registration and visitors are encouraged to scan the code with their smartphones and submit required information (name & phone number) to MyEntrypass.

MyEntrypass provides real time visitor monitoring for contact tracing which helps the process of controlling the Covid-19 outbreak.

## Features

### 1. Comprehensive dashboard shows the summary of visitors for the business premise, including:

- Number of customers today
- Number of new customers today
- Number of customers above normal temperature
- Top location
- Recent check-ins details, including location, customer details, temperature & time
- Summary of today-customer by hour
- Summary of today-customer temperature
- Crowd level heatmap\*\*

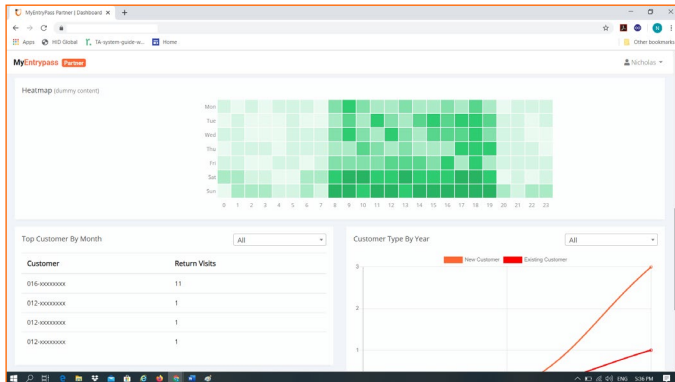

### 2. Each user can register multiple business/companies.\*\*

### 3. For each business/company, multiple locations can be registered.\*\*

\*\*Feature availability only in subscription basis\*\*

## Dashboard Screen

Dashboard

1030 Customers today

824 Avg. customers per day

0 Customers above body temperature

0 New Customer Today
